

## What Have We Done For DeKalb County Lately?

Wood-Land-Lakes RC&D has made a significant difference in helping local volunteers solve local natural resource problems. We have partnered with regional groups, community-based groups, watershed groups, state, and federal groups to make a positive impact regarding local natural resources. Some of the projects and activities we have undertaken in the past year include:

### 2008 Projects

Protecting 211 acres of farmland, including 61 acres of cropland and 47 acres of pasture, with a conservation easement.

Coordinating fundraising efforts and financial administrators for restoration of historic round barn.

Helping sponsors, consultants, nonprofits, and business start-ups on diverse projects and activities.

Developing 2 Present Condition Documents for 550 acres being protected with recently donated conservation easements.

Creating and updating list of current grant opportunities.

Facilitating meetings and assisting a local group develop a county-wide park system.

Assisting local groups promoting water quality and quantity management.
